

## **High School of Business: Principles of Management, Mr. Hambright**

Principles of Management is a 70-90 hour project based business course that furthers student understanding of management and management functions. Through both individual and team activities, students make connections between management and business success. Material involving hiring, compensation, competition, budgeting and planning are presented.

### **Goals**

Enable students to understand and appreciate the significance of management regarding business

Stimulate student interest careers involving business management

Increase student awareness of the increasingly complex business world

Pave the way for student success in a business administration major

### **Required Materials**

Students will need a wi-fi capable device both at home and at school. This can be a computer, tablet or Smartphone (to be provided by school if needed)

Student will be provided access and instruction on how to use the Canvas Education Program

Student will be required to communicate with Mr. Hambright using Remind program

Student will be required to participate in class meetings using Zoom program

### **Hybrid Course Pacing**

Each class period will begin at the assigned time with a Zoom meeting including all distance, hybrid and in person students. Attendance will be taken involving all three categories of students during this time. Instructions for that day's assignments will be given during the Zoom meeting, following that meeting Mr. Hambright will be available both in person, and online for assistance with those assignments.

### **Parent Contact Options**

Parents will be given class codes and may choose to receive Remind updates

Parents will be given Zoom codes and may choose to attend class meetings

Parents may also communicate at anytime with Mr. Hambright via text, email or any other means they choose.
