100 Points

When you have finished a lab assignment in the Academy classes, and have cleaned and sanitized your area. Then use this form to write up your lab. This form is also available, from the web, in word so you can type your lab if you prefer. You must turn in this lab form, a standardized recipe referencing the original. Due the first class of the following week after the lab was assigned.

Use the following scale to grade your lab. Keeping in mind some labs may not be tasted.

5=Great, 4=Good, 3=OK, 2=Barely Acceptable, 1=Not Good

Category	Score	Notes

What went well? What didn't? What would you change to improve the score above? Explain how your changes would improve the items in question. What did you learn in this lab that you can use next time. You may type your answers to these questions. Use back or staple to answer. (We will not accept incomplete answers. This assignment is for your reference later!)
