

# SANITATION

## Sanitation

---

The responsibility of management and staff to protect the public from food borne illness is fundamental. A food borne illness is simply a disease that is carried, or transmitted, to human beings by food. Throughout your training, you will receive information concerning proper temperatures of food storage and serving, as well as, cleanliness standards, proper use of chemical cleaning, and disinfectant products. It is our objective to operate the restaurant at the highest level of cleanliness and sanitation for the benefit of our customers and employees.
